ACE870

8" ANGLED LCR TRIMLESS CEILING SPEAKER

175W • 8Ω • 35Hz - 20kHz • White

Ordering
Model ACE870 • Sold as a single speaker • White, paintable magnetic grille • 10-year warranty

The OSD Audio ACE870 is an 8" angled LCR (left, center, right) trimless in-ceiling speaker for home theaters that want focused, room-filling sound without speakers on the wall. The angled design aims sound toward the listening area and allows ideal placement closer to the wall, keeping the imaging and staging that regular down-firing ceiling speakers lose.

Angled for Focused Theater Sound
Aims sound at the seats and allows ideal placement closer to the wall, keeping imaging that down-firing speakers lose.

Impressive Bass
An 8" carbon fiber composite woofer and a heavy-duty, efficient magnet structure that focuses energy in the voice coil gap deliver strong bass with crisp mids.

Pivoting Aluminum Tweeter and Contour Switch
Aim the 1" aluminum dome tweeter toward your seat, then use the front-mounted contour switch to tailor bass and treble to the room - all from the front.

Butyl Rubber Surround
Gives the woofer more excursion for deeper bass and wider frequency response.

Trimless and Easy to Install
Four easy-to-lock dog-ear brackets and a cut-out template are included, with a spray-paintable magnetic grille.

Angled design suits overhead channels in immersive surround formats such as Dolby Atmos®. Dolby and Dolby Atmos are registered trademarks of Dolby Laboratories.
