ICE830ST

8" 70V/100V COMMERCIAL CEILING SPEAKER

Up to 60W • 70V/100V or 8Ω • 45Hz - 22kHz • 89 dB

Ordering

Model ICE830ST • Sold as a single • Paintable grille • 10-year warranty

The OSD Audio ICE830ST is an 8" commercial ceiling speaker with a factory installed back can and a built-in 70V/100V transformer, for restaurants, retail and offices.

70V/100V or 8 Ohm

Built-in transformer with 30W, 15W and 7.5W taps runs many speakers on one 70V or 100V commercial amplifier, or use the 8 ohm setting with a standard home amp or receiver.

Big 8-Inch Sound

8 inch polypropylene cone woofer and 1/2 inch PEI dome tweeter deliver fuller bass and clear vocals from 45Hz to 22kHz with 89 dB sensitivity, rising above crowd noise.

Enclosed Back Can

Factory installed back can controls the sound, protects the driver from dust and debris and makes the speaker ideal for drop ceilings and open plenum spaces.

Built for Business

Ideal for restaurants, bars, retail stores, offices, lobbies, gyms, schools and houses of worship that need even background music and announcements.

Check the Fit

Needs a 9.75" cutout and 7" of clearance above the ceiling; the paintable grille is 11" across. Dog ear clamps, no brackets needed.
