

FORZA 5 Landscape Speaker

Designed for distributed audio systems in home and commercial settings, the Forza 5 landscape speaker is ideal for outdoor areas where discreet, ground-level audio coverage is needed. Its low-profile design blends naturally into landscaped environments such as gardens, patios, walkways, outdoor dining areas, parks, and other spaces where multiple speakers are required for even sound distribution.

Mounted securely on a ground stake, the speaker can be easily positioned in soil, mulch, or planting beds, allowing flexible placement throughout the landscape while keeping cables hidden for a clean and aesthetically pleasing installation. This makes it easy to create immersive audio coverage without disrupting the visual design of the outdoor space.

SPECIFICATIONS

- Woofer: 5.25" PP Cone
- Tweeter: 1" Silk Dome
- Power Handling: 60W Max
- Frequency Response: 110Hz - 20kHz
- Impedance: 8 Ohm/ 70V
- IP Level: IP66
- Sensitivity: 84dB
- Dispersion Angle: 120°
- Inputs: Phoenix Connectors
