

R61EZ Ceiling Speaker

This 6.5" 2-way single ceiling speaker is packed with audio-enhancing features such as a 6.5" polypropylene cone woofer cone for enveloping bass and a wide sound stage, as well as a 1" Pivoting Soft Dome Tweeter with Neodymium Magnet for those crisp and tingly high notes. The EZ Mount System, simply hold on to the tweeter bridge pushing the speaker up into the cutout and against the drywall, turning it clockwise about 15 degrees. This engages the EZ Mount System and locks the speaker in place.
