16. On/Off Switch

Including:

→ Instructions Manual
→ Remote Control
Parts
1. On/Off Button
2. Optical Source
3. Volume +/-
4. Previous/Next
5. Line In Source
6. Play/Pause
7. AUX Source
8. Mute
9. Bluetooth Source

Operation
1. Connect the power cord to the back of the amplifier then connect it to a wall outlet.
2. Connect your devices to a suitable input (more instructions on page 6).
3. Turn the power button to the On position, after two seconds the unit will enter working status and the input indicator will light up.
4. Press the Bluetooth, OPT, LINE or AUX button on the remote or the volume knob to choose an audio source.
   - Control the playback via the remote control by pressing the buttons.

   Note: The amplifier will shut off automatically if the temperature exceeds 185°F, to indicate this the Power indicator will turn orange. The amplifier will re-start automatically when the temperature has dropped below 140±10°F.

Bluetooth Pairing:
1. Press the Bluetooth on the remote to activate the Bluetooth source.
2. Activate Bluetooth on your phone/tablet and start searching for new Bluetooth devices.
3. When your phone/tablet finds OSD NERO XD, choose this unit and begin pairing up.

Connect Your Device:
- Connect your subwoofer to SUB Out.
- Connect your CD player via its RCA cable to the RCA L/R input. Make sure you connect the “L” plug to the left input channel and the “R” plug to the right input channel.
- Connect your phone/tablet/MP3 via an AUX cable to Line In.
- Connect your DVD player via its optical fiber cable to the Optical Input.
- Connect your speakers to the Speaker Output. Make sure you connect the +/- and the L/R cables to the right input.

Note: Remember to press the desired source button on the remote control for the audio source to work.
Troubleshooting

<table>
<thead>
<tr>
<th>Problem</th>
<th>Possible Cause</th>
</tr>
</thead>
</table>
| No power | - The power cord is disconnected.  
- Poor connection at the wall socket or the wall socket is inactive. |
| No sound | - The speakers are disconnected.  
- Volume control at lowest level.  
- Check if the signal cables are damaged.  
- Check if the LEDs are blinking.  
If not, restart the amplifier and ensure that the voltage regulator works. |
| Suddenly no sound during operation | - Check if the audio source works.  
- Maybe the product has entered into over-heat protection mode. |

| Bad sound | - Audio source problem  
- Bad or incorrect speakers connections.  
- Treble and bass control are too low. |
| LED off | - Check if the amplifier is connected with the power outlet and confirm that the voltage regulator works. |

Safety Instructions

- To reduce the risk of fire or electrical shock, do not expose the product to rain or moisture.
- The product should not be exposed to any dripping or splashing liquid.
- Objects filled with liquids, such as vases, should not be placed on the product.
- Keep the remote control battery away from children. Dispose of used battery promptly, replace only with a battery of the correct type.  
- Protect the power cord from damage. Do not pull push the power cord excessively, and take care not to let the power cord become pinched, particularly at or near the plug.  
- Keep the product away from heat sources such as heat registers, stoves or other appliances that produce heat.  
- Avoid direct sunshine and covering vents. Do not operate in a sealed box and be sure to have enough room for heat exchange.  
- Avoid opening the cover. Do not open the cover, or touch the inner parts, refer servicing to our customer service.  

Specifications

| Power supply | AC 120V/60Hz – 220V/50Hz |
| Max output power | 200W |
| Frequency response | 20Hz – 20kHz |
| Impendance | 4ohm |
| Bluetooth range | 33 feet |
| Dimensions | 7.5 x 5.5 x 2” inch |
| Weight | 2.8 lbs |

Warranty Information

All OSD AUDIO electronics have (2) year Limited Warranty against defects in materials and workmanship. Proof of purchase must accompany all claims. During the warranty period OSD AUDIO will replace any defective part and correct any defect in workmanship without charge for either parts or labor.

OSD AUDIO may replace returned electronics with a product of equal value and performance. In such cases, some modifications to the mounting may be necessary and are not OSD AUDIO’s responsibility.

Damage to or destruction of components due to application of excessive power voids the warranty on those parts. In these cases, repairs will be made on the basis of the retail value of the parts and labor. To return for repairs, you must email customer service at RMA@audiogeargroup.com for a Returned Merchandise Authorization (RMA) number then the unit must be shipped to OSD AUDIO at the owner’s expense, along with a note explaining the nature of service required. Be sure to pack the product(s) in a corrugated container with at least 3 inches of resilient material to protect the unit from damage in transit.

This Warranty Does Not Cover: Damage caused by abuse, accident, misuse, negligence, or improper operation (installation) • Any products that have been altered or modified • Any product whose identifying number of decal, serial #, etc. has been altered, defaced or removed • Normal wear and maintenance.
